Letter of Recommendation

It is a pleasure to write a letter of recommendation for Mr. Sumith Kumar Puri. I know him for two years and supervised an academic study project titled "Multicasting" during the Semester VII of B.E.

Through my observation, I would like to say that he is attentive, studious and articulate. He always has a positive attitude towards study. Sumith successfully completed the project titled 'Multicasting' during Semester VII of B.E. He was graded at 98/100. The project was based on Network Programming and was developed using C. He worked with a tremendous amount of perseverance and dedication, which I rate as one of the most important characteristics a student should possess.

His zest to acquire knowledge is unbeatable. Although timid and placid, he has a friendly and optimistic attitude. He is always ready to lend a helping hand towards his friends in times of difficulties, which makes him popular. He has shown a deep and abiding interest in the experimental and practical aspects of the subject along with sincerity and hard work, reflecting his potential for research.

He has also shown independence in work and an innovative bend of mind. He conceptualized and designed the college alumni website, which requires special mention. He was also instrumental in re designing and implementing the college logo. Sumith was equally competitive when it came to other extra curricular activities. The active participation in the inter college events shows his ability to excel in those fields too, besides academics. He was also a member of the college cricket team.

I have a strong opinion that he has the right aptitude to do well in Graduate studies and hence strongly recommend him for an admission as well as all the necessary financial assistantship.

I wish him grand success in all his future endeavors.

Sincerely,

Dr. T. Basavaraju

Principal
